Page 1

Q1 Respondent skipped this question

Why is West Hills Road important to you? (select all that apply)

Q2 Bicycle

Which mode do you use most often when traveling on West Hills Road?

Q3 More than daily

How often do you travel on West Hills Road? (between Western and 53rd)

Q4 To meet daily needs (such as shopping, appointments, visiting friends)
,
For exercise / recreation / enjoyment,
I use West Hills Road as an alternate route to Philomath Boulevard (US 20-OR 34 highway)
,
Other (please specify):
I walk my dog here as well, as do many residents.

Q5 There are no sidewalks.,
Bike lanes are too narrow.,
Other (please explain):
It is dark on this road at night, which makes it unsafe for use other than in a car. Also vehicles speeding while texting are a real concern, given how open the straight stretch appears, they wander over into the bike lanes.

Q6

What is the most important outcome to you for this corridor plan?

Enhance safety.,

Other (please explain):

This cannot turn into Philomath Highway #2. It is dangerous as it is. There is no speed enforcement on this road, and most everyone speeds in the 25 mph section, with drag strip style drivers on the west segment, passing over the center line. As soon as the Marys subdivision is developed this will be living nightmare unless frontage improvements from 53rd to Western are completed before hand..We need the speed limit to NOT be raised, and truck weight restrictions maintained. Several overweight semi trucks travel this route regularly, over the NARROW hill.

Q1 Respondent skipped this question

Why is West Hills Road important to you? (select all that apply)

Q2 Bicycle

Which mode do you use most often when traveling on West Hills Road?

Q3 About once a week

How often do you travel on West Hills Road? (between Western and 53rd)

Q4 To meet daily needs (such as shopping, appointments, visiting friends)

Why do you travel on West Hills Road? (select all that apply)

Q5 I am traveling too far to walk or bike for my trip.

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Q6 Add sidewalk(s)/shared use path.,
Other (please explain):
Please keep the beauty of our county in mind as you develop improvements. Benton County is special and we need to continue to preserve wild spaces.

To meet daily needs (such as shopping, appointments, visiting friends),
,
For exercise / recreation / enjoyment**

Why do you travel on West Hills Road? (select all that apply)

Q5 **There are no sidewalks.,
Other (please explain):
Living just off of West Hills, we would walk much more if there were sidewalks. It is a very dangerous stretch of road, especially when cars exceed the speed limit. I am nervous our children are at risk for getting struck by a care on this road which limits use.**

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Q6

What is the most important outcome to you for this corridor plan?

Add sidewalk(s)/shared use path.,

Other (please explain):

Adding sidewalks and/or a path would dramatically improve safety along this corridor. The intersection at Western almost already functions as a roundabout (with traffic on busy roads not stopping). While a roundabout may not be needed, it is very difficult for pedestrians to cross at this intersection. There are no crosswalks and a sidewalk only on the far side of the start of West Hills Road. We find ourselves crossing before we get to this intersection because of the safety issues crossing here presents.

,
For exercise / recreation / enjoyment

Q5 **Bike lanes are too narrow.,**

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Other (please explain):
I much prefer multiuser paths to bike lanes, which can be narrow, have trash cans on them, be piled with leaves, etc. Multiuse paths eliminate the need for bike paths, if they are large enough and separated from road with a green space, like on the Starker Arts/53rd section of Country Club.

Q6 **Add sidewalk(s)/shared use path.,**

What is the most important outcome to you for this corridor plan?

Other (please explain):
By adding a multiuse path, you would be enhancing safety.

Q3 **More than daily**

How often do you travel on West Hills Road? (between Western and 53rd)

Q4 **For work and/or school,
To meet daily needs (such as shopping, appointments, visiting friends)**

Why do you travel on West Hills Road? (select all that apply)

,

Other (please specify):

Well, duh. If you live anywhere near West Hills Rd and in the City limits it is THE road you likely use most often because of it is a rather direct connection to campus and downtown and the many services and opportunities in the central core area of the community. No rational person uses West Hills for "recreation" or "enjoyment" if they are on a bike or walking-too dangerous and inadequate....unless they have no choice. And West Corvallis has few choices. In essence the City forces citizens to use the West Hills Rd grossly un-safe bike and pedestrian facilities. There is "cut through" traffic from Campus/town that use West Hills Rd to reach Philomath or points east. But that isn't because it is the best corridor - it is because Hwy 20/34 is such a pathetic excuse for an arterial.

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Other (please explain):

When I travel by car on West Hills it is because I need to take a car. I do walk and bike (for exercise) in the area but I use 53rd. West Hills is too dangerous and isn't pleasant at all. I don't walk where there aren't sidewalks or separation from travel lanes. I don't bike where shoulders are not adequate. If I can not take 53rd on the ride I have in mind, I put my bike on the car rack and drive to a place where it is safe.

Q6

What is the most important outcome to you for this corridor plan?

Other (please explain):

Wow, this is a pretty confusing question. I would say stupid but we aren't supposed to offend people. WHAT IS MOST IMPORTANT is that West Hills Rd be built and maintained as any other City street in Corvallis...like 29th St, like Grant, Harrison or 10th. Or like Satinwood or Conifer. Or Ponderosa or Circle or you name it. You get the point??? Like a City street. Why are we forced to choose among services or features when all the other City streets get virtually all the features??? Why is West Corvallis and particularly West Hills Rd designated as what I would call "secondary service areas"? Why are we looked down on and denied services that all the other parts of the community (but very specially N. Corvallis) entitled to? You get sidewalks and bike lanes everywhere else. You even put "protected" lanes on some streets. And you spend 10s of thousands on continuously putting in handicapped ramps...yet no money for West Hills. I pay taxes. I pay fees. And I vote. Tired of getting the cold shoulder.

,
 Other (please specify):
 I live on WHR.

Q5 **Other (please explain):**

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Advancing age (I'm 95).

Q6 **Maintain current speed limit,**

What is the most important outcome to you for this corridor plan?

Other (please explain):
 Maintaining existing speed limits on WHR is vital to the safety of walkers, bikers, and residents. Yet, traffic passing by my home at the summit of Lookout Drive hill mostly ignores the posted 25mph speed limit. Inadequate signage, limited police patrol, and the illusion of a wider roadway than actually exists due to the addition of bike lanes are factors that may contribute to the problem.

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Other (please explain):

In addition, I have mobility challenges that limit biking and walking.

Q6 **Enhance safety.,**

What is the most important outcome to you for this corridor plan?

Other (please explain):

Enhance safety for pedestrians, give residents on West Hills Rd SAFE access to their mailboxes (the people are in danger from auto traffic at all times of the day and night when trying to use their own mailboxes), enhance safety for bicyclists AND keep the road speed limit in the 25 mph range... definitely no higher than 30 mph even with improved sidewalks for safety.

Q1

Why is West Hills Road important to you? (select all that apply)

I live on West Hills Road or a street that connects to it.,
It's my most direct route to frequent/important destinations.
,
It's quicker than using Philomath Boulevard (US 20-OR 34 highway).
,
It connects to the shared use path on 53rd Street.

Q2

Which mode do you use most often when traveling on West Hills Road?

Auto

Q3

How often do you travel on West Hills Road? (between Western and 53rd)

Several times a week

Q4

Why do you travel on West Hills Road? (select all that apply)

To meet daily needs (such as shopping, appointments, visiting friends)
,
For exercise / recreation / enjoyment,
I use West Hills Road as an alternate route to Philomath Boulevard (US 20-OR 34 highway)

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

There are no sidewalks.,
Bike lanes are too narrow.

Q6

What is the most important outcome to you for this corridor plan?

Add sidewalk(s)/shared use path.,

Other (please explain):

Improving the intersection at Western Blvd is also very important to me. It will help with traffic calming on Western Blvd. Cars heading into Corvallis from Highway 20 have not yet felt the need to transition to pedestrian friendly speeds.

Q5 **There are no sidewalks.**

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Q6

What is the most important outcome to you for this corridor plan?

Enhance safety.,

Other (please explain):

I think the biggest problem is speeding. I think speed limit for entire street should be 25 mph. I also think an alternative way for people to have their trash collected (other than the current way of blocking bike lanes/walking lane) is needed. I am *not* in favor of roundabouts: my experience with the roundabout at 53rd is that people don't know how to use (drive through) it. I have had several near misses. Because of limited visibility, due to overgrown plants in the center of the roundabout, I think the roundabout is very risky to pedestrians trying to cross. I would favor 4-way stops as there are in other areas of Corvallis. This would also cause people to slow down.

Page 1

Q1

Why is West Hills Road important to you? (select all that apply)

I live on West Hills Road or a street that connects to it,
It's my most direct route to frequent/important destinations.
,
It's a scenic route I enjoy traveling.

Q2

Which mode do you use most often when traveling on West Hills Road?

Auto ,
Bicycle,
Walk

Q3

How often do you travel on West Hills Road? (between Western and 53rd)

More than daily

Q4

Why do you travel on West Hills Road? (select all that apply)

For work and/or school,
To meet daily needs (such as shopping, appointments, visiting friends)
,
For exercise / recreation / enjoyment,
Other (please specify):
I used to drive exclusively. I now bike, but have to go around campus way because the direct route to OSU/downtown is too dangerous for bikes. I like to walk to OSU/downtown, but can't in the winter time because it's often dark, rainy, and...no safe place to walk-cars drive right over the white paint-and at very high speeds.

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

There are no sidewalks.,

Other (please explain):

Bike Lanes are not protected in any way. It is too dangerous to walk, and too much car noise, exhaust reckless drivers, etc... No bike path for bike riding. The knoll is treacherous for all users.

Q6

What is the most important outcome to you for this corridor plan?

Add sidewalk(s)/shared use path.,

Other (please explain):

Safety remedies for bikes and pedestrians: shared use path, reduce car trips, SLOW speed. This area is rapidly developing; let's do it in a climate friendly way- and allow people to walk, or take an ebike to safeway/sunset shopping center. The freedom to travel from the Mary's Annexation/Grand Oaks, even Philomath, a way to get to OSU and Downtown--but not in a car. Update the TSP, and create a connected and protected bike path from 53rd thru Western to downtown. Compared to wider lanes, turn lanes, and paint, a path would be fiscally responsible, better for the environment, and will be a gem for the city.

Q1

Why is West Hills Road important to you? (select all that apply)

I live on West Hills Road or a street that connects to it.,

It's my most direct route to frequent/important destinations.

,

It's quicker than using Philomath Boulevard (US 20-OR 34 highway).

,

It's a scenic route I enjoy traveling.,

Other (please explain):

Dont know what shared use path on 53rd references. I depend on W Hills to get me to 53rd to the hosp, etc, to Philomath for the pharmacy, to Western, to Reservoir Rd. I cant imagine safely widening it. I have never found it to be crowded with vehicles nd I travel it from dawn to dusk most days.

Q2

Which mode do you use most often when traveling on West Hills Road?

Auto

Q3

How often do you travel on West Hills Road? (between Western and 53rd)

More than daily

Q4

Why do you travel on West Hills Road? (select all that apply)

To meet daily needs (such as shopping, appointments, visiting friends)

,

I use West Hills Road as an alternate route to Philomath Boulevard (US 20-OR 34 highway)

,

Other (please specify):

Hwy 20 is jammed a number of times daily. Western rarely is backed up.

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Other (please explain):

I am disabled w advanced bone cancer so a car is my only option.

Q6

What is the most important outcome to you for this corridor plan?

Other (please explain):

I have not experienced these problems.

Q5 **There are no sidewalks.,**
Bike lanes are too narrow.

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Q6

What is the most important outcome to you for this corridor plan?

Improve intersection at Western (roundabout or other),

Other (please explain):

There have been at least 3 recent serious accidents that required a towing, at the Y where Western and West Hills Road come together. There is evidence of other collisions that did not require a tow. We live not far from that intersection and it is not uncommon to have cars, pickups, and motorcycles starting at 35th and flying down Western doing 50+ MPH by the time they get to the Y and speeding up further - heading for Philomath Blvd. Somebody is going get run over (which I nearly saw happen) - coming from the Apartments on the north-side of Western by crossing near the Y to the bus stop (they do not use the new walkway that is further east on Western because its much shorter to just run across Western to the Bus stop on the southside of Western). What would help this problem is to move that bus stop to be near the walkway (just Adding a round about would greatly increase the safety of Western and West hills road. Beside slowing down traffic going west on Western it would also slow traffic going west from the Y on West Hills Road - because some people coming from 35th can be going fast through that Y and only speed up more after getting on to West Hills Road. In addition to the roundabout there needs to speed bumps on both Western and West Hills Road.

Page 1

Q1

Why is West Hills Road important to you? (select all that apply)

It's my most direct route to frequent/important destinations.

Other (please explain):

I live at Grand Oaks area and use West Hills Road to travel to campus, where I work, as well as to other destinations in Corvallis.

Q2

Which mode do you use most often when traveling on West Hills Road?

Auto

Q3

How often do you travel on West Hills Road? (between Western and 53rd)

Several times a week

Q4

Why do you travel on West Hills Road? (select all that apply)

For work and/or school,

To meet daily needs (such as shopping, appointments, visiting friends)

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

I am traveling too far to walk or bike for my trip.

Q6

What is the most important outcome to you for this corridor plan?

Enhance safety.,

Other (please explain):

Additional consideration on this road is wildlife, specifically deer, who either graze on the sides or cross that road very frequently. I usually drive below the speed limit there for that very reason.

Q1 **It connects to the shared use path on 53rd Street,**
Why is West Hills Road important to you? (select all that apply) Other (please explain):
It'd be safer and more our ads r than Hwy 34/Phil Blvd with bike lanes.

Q2 **Auto**
Which mode do you use most often when traveling on West Hills Road?

Q3 **Infrequently**
How often do you travel on West Hills Road? (between Western and 53rd)

Q4 **To meet daily needs (such as shopping, appointments, visiting friends)**
Why do you travel on West Hills Road? (select all that apply) ,
I use West Hills Road as an alternate route to Philomath Boulevard (US 20-OR 34 highway)
,
Other (please specify):
Right now I don't bike in it because it doesn't feel safe enough. I'd like to use it as a bike route more!

Q5 **There are no sidewalks.,**
If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you? **Bike lanes are too narrow.**

Q6 **Add sidewalk(s)/shared use path.**
What is the most important outcome to you for this corridor plan?

 Why do you travel on West Hills Road? (select all that apply)

Q5 **I am traveling too far to walk or bike for my trip.,
 There are no sidewalks.,
 Bike lanes are too narrow.**
 If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Q6 **Add sidewalk(s)/shared use path.,
 Other (please explain):
 Corvallis needs a better *off-street* bike network. The fact that there are no curbs/sidewalks along West Hills gives the City and County the great flexibility to install a shared use path. Please do not pass up this rare opportunity.**
 What is the most important outcome to you for this corridor plan?

Page 1

Q1

Why is West Hills Road important to you? (select all that apply)

I live on West Hills Road or a street that connects to it.,

It's my most direct route to frequent/important destinations.

,

It's quicker than using Philomath Boulevard (US 20-OR 34 highway).

,

It connects to the shared use path on 53rd Street.,

Other (please explain):

This is the only egress we have from our street (Timian) unless we walk or ride our bikes. But that option puts us on Philomath Blvd. (Hwy20/34) which is not bicycle nor pedestrian friendly.

Q2

Which mode do you use most often when traveling on West Hills Road?

Bicycle

Q3

How often do you travel on West Hills Road? (between Western and 53rd)

More than daily

Q4

Why do you travel on West Hills Road? (select all that apply)

For work and/or school,

To meet daily needs (such as shopping, appointments, visiting friends)

,

For exercise / recreation / enjoyment,

Other (please specify):

It's really our only option except for Hwy 20/34 which would be by walking or by bike. We do sometimes exit Timian via Hwy 20/34, but only to get to the shopping center and bank.

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Other (please explain):

The make up of West Hills Rd. doesn't determine if I will take a car or ride my bike. Most of the time, the reason I take a car is that I can't carry what I'm buying on my cargo bike or that I am leaving town. It's essential that whatever design the city/county agree to makes West Hills Rd. safe for pedestrians and cyclists.

Q6

What is the most important outcome to you for this corridor plan?

Add sidewalk(s)/shared use path.,

Other (please explain):

The most important outcome for me is that the West Hills corridor becomes a safe residential/connector street. I really don't like the idea of making it an arterial, which I believe it is now designated as. If it is to continue as an arterial, then traffic calming infrastructure like round-a-bouts need to be installed. Thank you for your time in trying to sort our a difficult situation. We in the neighborhood are well aware of the difficulties in making West Hills Rd. safe and functional. I would also like to thank you for taking into consideration the neighborhoods often varying opinions. We see the problems daily and, I believe, have important ideas to contribute. Ken Pate ikabaud48@gmail.com

Page 1

Q1 Why is West Hills Road important to you? (select all that apply)

Other (please explain):
 Because I am a Corvallis resident and taxpayer and do not want to pay for improvements that should be paid for by the property owners in the area. Road should not be taken over by the city until it is brought up to city standards.

Q2 Which mode do you use most often when traveling on West Hills Road?

Auto

Q3 How often do you travel on West Hills Road? (between Western and 53rd)

Infrequently

Q4 Why do you travel on West Hills Road? (select all that apply)

Other (please specify):
 Only time I used it was to visit scout troop at 1st Congregational church. That was decades ago.

Q5 If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

I am traveling too far to walk or bike for my trip., I prefer to drive.

Q6 What is the most important outcome to you for this corridor plan?

Other (please explain):
 That any improvements are paid for by local property owners and not the city of Corvallis.

 If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Q6 **Enhance safety.,**
 What is the most important outcome to you for this corridor plan?
 Other (please explain):
 Many drivers ignore the 25 mph posted speed limit between Western Blvd and Sylvia Ln. I'd like to see speed bumps installed (like those on Circle Blvd, west of Witham Hill Dr.).

Q5 **I prefer to drive., Other (please explain): The biggest barrier to walking and biking is the weather and time consumption. I can handle some rain, if I have rain gear, but I cannot be out in the heat. Even above 75 degrees and I get overheated.**
 If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Q6 **Other (please explain): Keep the road rural, not urban. Right, the City can't listen to that request. I know that, but the city makes everything ugly or citified. I do love the roundabout, always have loved them and would like to see more of them in Corvallis.**
 What is the most important outcome to you for this corridor plan?

Q1

Why is West Hills Road important to you? (select all that apply)

It's a scenic route I enjoy traveling.,

Other (please explain):

I go to events at the Congregational church, like the Chintimini Chamber music concerts. I mostly ride my bike to these events.

Q2

Which mode do you use most often when traveling on West Hills Road?

Bicycle

Q3

How often do you travel on West Hills Road? (between Western and 53rd)

Infrequently

Q4

Why do you travel on West Hills Road? (select all that apply)

For exercise / recreation / enjoyment

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Respondent skipped this question

Q6

What is the most important outcome to you for this corridor plan?

Enhance safety.,

Other (please explain):

Reduce greenhouse gas emissions through reducing car and truck traffic. For this, I would like to suggest creating a car-free zone in the West Hills area, in particular in conjunction with the development of housing on the Linn property.

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you? **Bike lanes are too narrow.**

Q6

What is the most important outcome to you for this corridor plan?

Add sidewalk(s)/shared use path.,

Other (please explain):

Safety is a huge concern along this corridor. There are no protections for pedestrians from traffic. The increase in traffic along West Hills is alarming to any that live in this area. Speed limits are rarely obeyed, and aggressive and distracted driving make walking or exercising a dangerous activity for all involved. Sidewalks would provide safe passage for pedestrians traveling this corridor.

 Which mode do you use most often when traveling on West Hills Road?

Q3 **More than daily**
 How often do you travel on West Hills Road? (between Western and 53rd)

Q4 **For work and/or school, To meet daily needs (such as shopping, appointments, visiting friends)**
 Why do you travel on West Hills Road? (select all that apply)

Q5 **I am traveling too far to walk or bike for my trip.,**
 If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?
 Other (please explain):
 I do not feel safe walking or biking in the area anymore. I am afraid of the very large amount of homeless that are camped out in the tree farm as well as the church's safe camp residents.

Q6 **Enhance safety.,**
 What is the most important outcome to you for this corridor plan?
 Other (please explain):
 It does not make sense half is at 25mph and the other half is 35mph

Q1

Why is West Hills Road important to you? (select all that apply)

I live on West Hills Road or a street that connects to it,

It's my most direct route to frequent/important destinations.

,

It connects to the shared use path on 53rd Street,

Other (please explain):

West Hills Road is the only route to exit where I live.
Philomath Blvd is not an option.

Q2

Which mode do you use most often when traveling on West Hills Road?

Auto ,

Bicycle,

Walk

Q3

How often do you travel on West Hills Road? (between Western and 53rd)

More than daily

Q4

Why do you travel on West Hills Road? (select all that apply)

To meet daily needs (such as shopping, appointments, visiting friends)

,

For exercise / recreation / enjoyment,

Other (please specify):

Using West Hills Road is my only option to access
Philomath Blvd via Western Blvd or 53rd Street.

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

There are no sidewalks.,

Bike lanes are too narrow.,

Other (please explain):

Safety as cars do not drive the posted speed limits of 25 or 35 mph.

Q6

What is the most important outcome to you for this corridor plan?

Enhance safety.,

Other (please explain):

Road design to impede drivers from speeding. If you do that, then pedestrians crossing the street and bicyclists adjacent to the car lanes will be safer.

Q1

Why is West Hills Road important to you? (select all that apply)

I live on West Hills Road or a street that connects to it,
It's my most direct route to frequent/important destinations.
,
It's quicker than using Philomath Boulevard (US 20-OR 34 highway).
,
It connects to the shared use path on 53rd Street.,
It's a scenic route I enjoy traveling.

Q2

Which mode do you use most often when traveling on West Hills Road?

Bicycle

Q3

How often do you travel on West Hills Road? (between Western and 53rd)

About once a week

Q4

Why do you travel on West Hills Road? (select all that apply)

To meet daily needs (such as shopping, appointments, visiting friends)
,
I use West Hills Road as an alternate route to Philomath Boulevard (US 20-OR 34 highway)

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Other (please explain):

The section between Western and 53rd has adequate bike lanes. There's no barrier for me. Reservoir Rd and West Hills Rd between Consumers Power and 19th Street in Philomath isn't nearly as safe as it should be as cars travel way faster than they should and frequently pass each other in a reckless way.

Q6

What is the most important outcome to you for this corridor plan?

Maintain current speed limit.,

Other (please explain):

As a cyclist, a car speed limit of 35 mph is infinitely safer than 45 mph. The section between Western and 53rd should definitely remain 35 mph (and 25 on the hill and east of it). If the rest of West Hills Rd could be 35 mph also I would feel so much safer and may even allow my children to ride their bikes in the bike lane. The amount of time this would cost drivers is very small. As it is, if I leave my house (2501 SW West Hills Rd) and turn towards Corvallis or Philomath I encounter a memorial on the side of the road for someone who died in a car crash within less than 1/4 mile. This is totally unacceptable.

Bike lanes are too narrow.**
If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Q6

What is the most important outcome to you for this corridor plan?

Maintain current speed limit.,

Other (please explain):

Since the Reservoir Road installation between 53rd and West Hills Road, these two routes Reservoir and West Hills) have become a traffic and safety nightmare (see accident and fatality history). Travellers have discovered a back door route to avoid the traffic and stoplights on Philomath Blvd - which should be the appropriate commuter route, Speeds, traffic volume and traffic noise from revving and racing vehicles, trucks and emergency vehicles has become miserable for those of us who invested in more rural living. Bicycling is crazy-dangerous from Philomath to 53rd on Reservoir and West Hills. Very poor planning and now ignorance of the problems created,

Q1

Why is West Hills Road important to you? (select all that apply)

I live on West Hills Road or a street that connects to it.,

It's my most direct route to frequent/important destinations.

,

It's quicker than using Philomath Boulevard (US 20-OR 34 highway).

,

Other (please explain):

It's our only option out at morning and evening rush hour when 34 is overly congested.

Q2

Which mode do you use most often when traveling on West Hills Road?

Auto ,

Walk

Q3

How often do you travel on West Hills Road? (between Western and 53rd)

More than daily

Q4

Why do you travel on West Hills Road? (select all that apply)

To meet daily needs (such as shopping, appointments, visiting friends)

,

For exercise / recreation / enjoyment,

I use West Hills Road as an alternate route to Philomath Boulevard (US 20-OR 34 highway)

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

I am traveling too far to walk or bike for my trip.,

There are no sidewalks.,

Bike lanes are too narrow.

Q6

What is the most important outcome to you for this corridor plan?

Enhance safety.,

Other (please explain):

I live on Sunset Dr. Our exit onto West Hills is blind curve with cars coming from both directions well over the 25 mph limit. We need a large convex mirror to see up the road to the east. Also, crossing the road to access a sidewalk on the north side of the would be very hazardous from our street.

Page 1

Q1

Why is West Hills Road important to you? (select all that apply)

Other (please explain):

West Hills Rd is functionally classified and designated as a collector street in both City and County TSP's and has been for at least 40 years. It has been recognized, therefore, and agreed upon this federal roadway classification by both government agencies, the State and FHWA. This designation recognizes its value and importance to the regional transportation system and that functionality should be maintained when transferred to City jurisdiction. As per the long-standing City/County agreement for this type of issue in the urban growth fringe, it should be brought up to full urban improvements as per the City's TSP.

Q2

Which mode do you use most often when traveling on West Hills Road?

Auto

Q3

How often do you travel on West Hills Road? (between Western and 53rd)

Infrequently

Q4

Why do you travel on West Hills Road? (select all that apply)

Other (please specify):

I use it as an east/west transportation connection much like Hwy 20/34, Harrison, Circle Blvd and Walnut Blvd.

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Other (please explain):

I live far enough away that biking or walking is impractical. Public transit could and should be a consideration for future increased options.

Q6

Enhance safety.

What is the most important outcome to you for this corridor plan?

More than daily

Q4

Why do you travel on West Hills Road? (select all that apply)

For work and/or school,
To meet daily needs (such as shopping, appointments, visiting friends)
,
For exercise / recreation / enjoyment,
I use West Hills Road as an alternate route to Philomath Boulevard (US 20-OR 34 highway)

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Respondent skipped this question

Q6

What is the most important outcome to you for this corridor plan?

Enhance safety.,

Other (please explain):

On some portions of the road, residents place trash cans on a way that occludes the entire shoulder, requiring bicyclists to move into a fast-traffic lane. A dedicated bike lane or more robust shoulder would be great to make things safer.

Q5 **I prefer to drive.**
If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Q6

What is the most important outcome to you for this corridor plan?

Add sidewalk(s)/shared use path.,

Other (please explain):

Adding sidewalks/shared use path is for safety. When driving, I must often cross the center line to avoid bicycles or walkers with a dog on leash. Also, a roundabout at the east end would improve an odd and confusing intersection. The roundabout at the west end works well, although it could be larger because of the speed on 53rd.

Page 1

Q1

Why is West Hills Road important to you? (select all that apply)

Other (please explain):

When the area is urbanized, the nature of the urbanization along with the choices of transportation infrastructure will make a difference for all of us in the city. E.g. If amenities are not included in the new neighborhoods and cycling/walking/bus aren't made to be more desirable than driving, I imagine we'll have increased car traffic throughout the city.

Q2

Which mode do you use most often when traveling on West Hills Road?

Bicycle

Q3

How often do you travel on West Hills Road? (between Western and 53rd)

Infrequently

Q4

Why do you travel on West Hills Road? (select all that apply)

Other (please specify):

I had a choir concert at a church along this road.

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Other (please explain):

N/A, but I will say that I didn't enjoy biking on this road. The bike lanes ARE too narrow. Ideally, there will be a separate bike path that leads from this area to OSU and continues to downtown.

Q6

What is the most important outcome to you for this corridor plan?

Enhance safety.,

Other (please explain):

Safety includes roads that are designed so that cars naturally travel at a safe speed. It also means having appropriate infrastructure for pedestrians and cyclists. A well-designed roundabout would be a great way to also improve safety along with traffic flow.

The hill.**
If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Q6

What is the most important outcome to you for this corridor plan?

Enhance safety.,

Other (please explain):

I live on Sunset Drive. Enhance safety includes maintaining speed. I, my neighbors, and the school bus have been almost hit from behind too many times by people flying over the top of the hill going westbound. This will only get worse as development to the west increases and more people use West Hills to bypass Philomath. Any improvement plan to West Hills also needs to include improvements to Philomath to relieve congestion on that route and encourage people who use West Hills to bypass the Philomath mess to take that route over West Hills.

Q1

Why is West Hills Road important to you? (select all that apply)

I live on West Hills Road or a street that connects to it,
It's my most direct route to frequent/important destinations.
,
It's quicker than using Philomath Boulevard (US 20-OR 34 highway).
,
It connects to the shared use path on 53rd Street.

Q2

Which mode do you use most often when traveling on West Hills Road?

Auto

Q3

How often do you travel on West Hills Road? (between Western and 53rd)

More than daily

Q4

Why do you travel on West Hills Road? (select all that apply)

For work and/or school,
To meet daily needs (such as shopping, appointments, visiting friends)
,
I use West Hills Road as an alternate route to Philomath Boulevard (US 20-OR 34 highway)

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

I prefer to drive.,
Other (please explain):
We have curbs and gutters all over the place and we don't need/want west hills to be all finished out that way. The County shouldn't have to pay for that. Let the city when they take over.

Q6

Maintain current speed limit.

What is the most important outcome to you for this corridor plan?

Why do you travel on West Hills Road? (select all that apply)

,

I use West Hills Road as an alternate route to Philomath Boulevard (US 20-OR 34 highway)

,

Other (please specify):

I would definitely bike this route for commuting and enjoyment if there was a multi-use protected path that connected to the path along 53rd.

Q5 **There are no sidewalks.,**

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Bike lanes are too narrow.,

Other (please explain):

There is a really difficult intersection just to the west of Dion St and the curving section as you cross the main rise with no visibility is disconcerting.

Q6

What is the most important outcome to you for this corridor plan?

Add sidewalk(s)/shared use path.,

Other (please explain):

I wish I could pick both the intersection and adding a shared use path. I would prefer a single wider multi-use path on one side of the street rather than small sidewalks on both sides of the street. The path improvement is slightly more important, to feel safer, but if more roundabouts were added to the road with the development planned, maybe just knowing driving speed is controlled would make biking on the roadside bike lane a bit more appealing.

Q1

Why is West Hills Road important to you? (select all that apply)

Other (please explain):

I have a friend that lives in this neighborhood. I would like to see Corvallis grow sustainably and prioritize safe active transportation infrastructure in its new developments. This development is important to me because it has so much potential to link to multi-use paths and be part of protected active transportation network to OSU, downtown, Safeway shopping center on Philomath Blvd, and Adams Elementary School.

Q2

Which mode do you use most often when traveling on West Hills Road?

Bicycle

Q3

How often do you travel on West Hills Road? (between Western and 53rd)

Infrequently

Q4

Why do you travel on West Hills Road? (select all that apply)

Other (please specify):

To visit a friend infrequently

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

There are no sidewalks.,

Bike lanes are too narrow.,

Other (please explain):

Please reduce vehicle speed and prevent cut-through traffic

Q6

What is the most important outcome to you for this corridor plan?

Enhance safety.,

Other (please explain):

Enhancing safety means reducing vehicle speeds by design, building a protected and shaded shared use path, AND improving the intersection at Western.

Q5

If usually traveling on West Hills Road by car, what is the biggest barrier to walking or biking for you?

Bike lanes are too narrow.

Q6

What is the most important outcome to you for this corridor plan?

Add sidewalk(s)/shared use path.,

Other (please explain):

Make it safer to ride a bike along West Hills Road, especially through the corner/hill near the church. I would not feel safe riding my bike in that stretch of road, nor making a left turn onto Western from West Hills Road as the intersection/traffic flow is currently designed. Cars are driving fast on Western and visibility down to US-20 isn't always the best from West Hills Road.
