

About the Project

Welcome to the Final SW West Hills Road Corridor Plan Open House!

SW West Hills Road, from 53rd Street to SW Western Boulevard, is currently owned and operated by Benton County but is anticipated to be transferred to the City of Corvallis at some undetermined point in the future.

With development occurring in the area, there is a need to consider urban road improvements for the entire corridor, such as curb and gutter, sidewalks, and bicycle investments.

We are sharing information on a number of items:

1. **Previous concepts and their considerations**
2. **A third concept and its considerations**
3. **Other options considered, but not advanced**

Forms are available for you to provide feedback.

Thank you for your interest in this project and for providing us with valuable feedback!

Welcome

SW West Hills Road Corridor Plan

Open House

Self-Guided Open House

This open house presents a number of concepts for how **SW West Hills Road** could be better equipped with such urban features as curbs, gutters, bicycle facilities, and sidewalks.

This self-guided open house has the following steps to follow:

1. **Please Sign In**
2. **Take a Comment Sheet**
3. **Fill Out a Name Tag**
4. **View the Long Maps of Early Concepts A & B and New Concept C**
5. **View the Typical Cross Sections and Their Evaluation Highlights**
6. **View the Potential Treatments Boards**
7. **Engage Us with Questions**
8. **Complete a Comment Sheet, If You Like**
9. **Enjoy Your Evening!**

Thank you for coming and sharing your thoughts!

Corridor Treatments

Raised Island (Speed Management)

Raised Intersection (Speed Management and Enhanced Ped/Bike Crossing Treatment)

Left Turn Lane (Vehicle Capacity and Crash Reduction)

Corridor Treatments

Enhanced Pedestrian Crossing

Sidewalk Buffer (Area for Mailboxes and Weekly Garbage Collection)

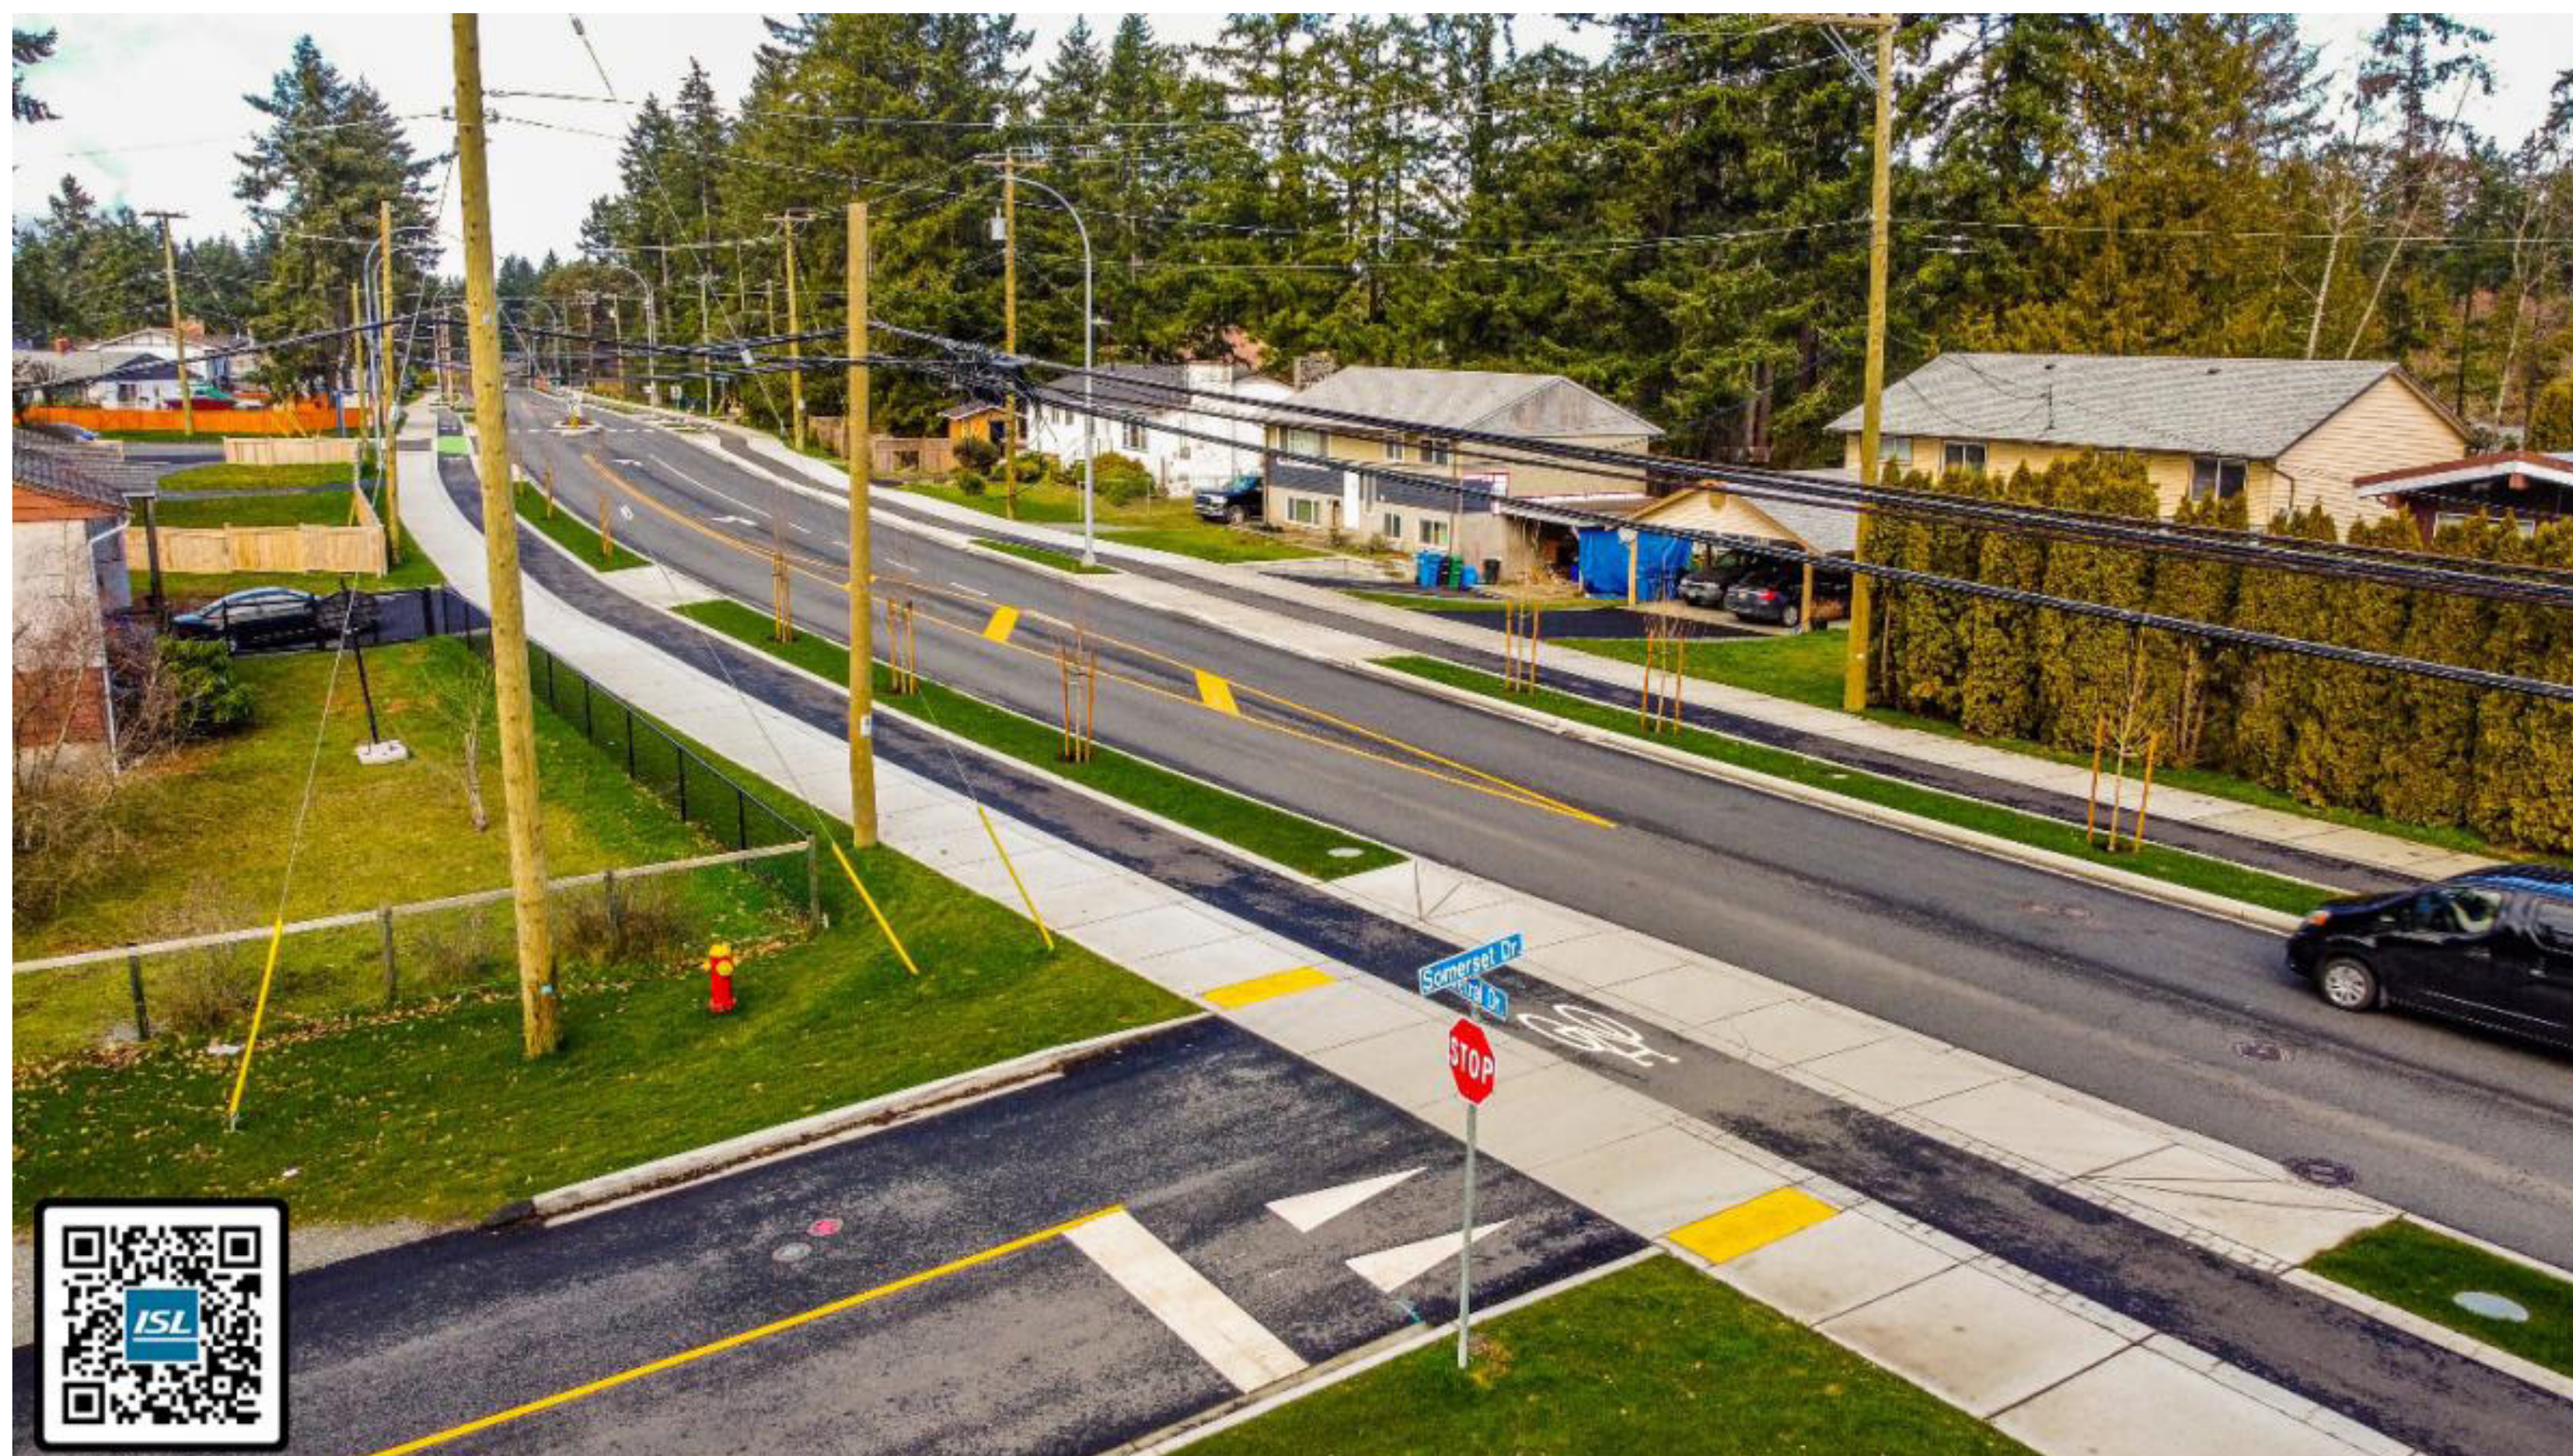

Roadway Lateral Shift (Speed Management)

Unique Concept C Treatments

Aerial View of a Raised Pedestrian and Bicycle Crossing at a Side Street
