

Erosion & Sediment Control Permit Application Checklist for Applicants

Please return the following materials with your Erosion and Sediment Control Application:

- Documentation of Oregon DEQ Permit Approval (if applicable)
- Completed Erosion and Sediment Control Application Form
- Completed Disturbed Area Worksheet
- Completed Impervious Area Worksheet
- Site Plan with Details

If your project requires post-construction stormwater management, as determined by your Impervious Area Worksheet, you must apply for a Post-Construction Stormwater Management Permit.

Stormwater Management Permit Application Checklist for Applicants

Please return the following materials with your Stormwater Management Permit Application:

- Stormwater Treatment Equivalencies Worksheet – *for projects creating over ¼ acre of impervious surface as determined by the Impervious Area Worksheet*
- Documentation of BC ESC Permit Approval
- Pre & Post Construction Site Plan with supporting Details
- Completed Impervious Area Worksheet
- Detention Calculations
- Treatment Calculations
