

Erosion & Sediment Control Permit Application Checklist for Applicants

Please return the following materials with your Erosion and Sediment Control Application:

- Documentation of Oregon DEQ Permit Approval (if applicable)
- Completed Erosion and Sediment Control (ESC) Application Form
- Completed Disturbed Area Worksheet
- Completed Impervious Area Worksheet
- Site Plan with Details

If your project requires post-construction stormwater management, as determined by your Impervious Area Worksheet, you must apply for a Post-Construction Stormwater Management Permit.
