Enter the Impervious Surface area of your project, including all roofs, driveways, patios, parking areas, or other surfaces designed to shed water (use Impervious Area Worksheet):

_____ acres _____ square feet 1 acre = 43,560 square feet

NOTE: Projects with $\frac{1}{4}$ acre or more of impervious surface that cannot mitigate stormwater impacts by using Low Impact Development or Green Infrastructure options ("square footage equivalencies") will need to create a long-term stormwater quality management plan and sign a maintenance agreement with Benton County.

1. **Attach detention & treatment facility drawings and a location map.** Submitted drawings must illustrate existing and proposed site features. **Complex sites may require separate existing and proposed drawings.** Drawings shall be to scale with topography and a north arrow. Drawings shall illustrate all structures, roads and road names, driveways, alleys, paved areas, property boundaries, the full extent of all disturbed areas, all drainage ways, ditches, stormwater structures and culverts, septic drain fields, wells, major vegetation, the erosion and sediment control (ESC) and Best Management Practices (BMP) measures employed. (see site plan template and application checklists)

2. **Please briefly describe how you will address post-construction stormwater management requirements :** _____

3. **Will the project involve any off-site work? ***

_____ YES _____ NO

4. **Location and description of off-site work** _____

***Applicant is required to obtain all applicable local, state and federal permits and to comply with supporting statute.**

SIGNATURES

By signing this form, I certify that I am the legal owner(s) or contract purchaser(s) of the above noted property and that the information contained herein is true, complete, and accurate to the best of my knowledge and belief. I acknowledge and agree that employees of Benton County shall have authority to enter the project site at all reasonable times for the purpose of site inspection. I acknowledge that under Benton County Code, the property owner is legally responsible for compliance with the County's erosion and sediment control requirements as defined and referenced in BCDC Chapter 99.
